

TEXTO A - SUGGESTED ANSWERS**Who Invented Music?****Question A.1**

- a) **FALSE:** "No historical evidence exists to tell us exactly who sang the first song, or whistled the first tune, or made the first rhythmic sounds that resembled what we know today as music."
- b) **TRUE:** "Archaeologists have helped musicologists to learn about ancient musical instruments from the artifacts they've uncovered."

Question A.2

Key ideas

- a) Several reasons might explain this, such as the wish to reproduce beautiful sounds like those made by birds, or as a mechanism to attract and hunt animals. Also, singing could have been used as a way to interact with children, in the way modern children's songs do.
- b) People working in the countryside used little instruments that were easy to carry and take with them, while poet-musicians played aulos, more complex and requiring special abilities.

Question A.3

- a) happened
- b) throughout
- c) full
- d) combined

Question A.4

- a) has loved ----- on
- b) had known ----- would not have bought
- c) noisy ----- playing
- d) He asked me what songs I used to listen to when I was a child.
